EDUCATION

Hi -tech institute of engg. and techonolgy **2023-2027**
B.tech in computer science ghaziabad up

COURSEWORK

- Dta structures and algoerithms in java
- css
- react.js
- c
- java
- html
- javascript
- express.js
- python

PROJECTS

color gradient | *react* **2025**

- A color gradient is a smooth and gradual transition between two or more colors, where one color blends seamlessly into another. It is widely used in modern design to create visually appealing backgrounds, buttons, and text effects. Gradients can be linear, radial, or angular, depending on the direction and shape of the color transition. They help add depth, dimension, and a dynamic look to designs, making them more engaging and attractive compared to solid colors.

TECHNICAL SKILLS

Programming Languages: javascript, c, java, python
Web Development: react.js express.js
Databases: MySQL
Tools: Git , VS Code
Concepts: RESTFul APIs

ACHIEVEMENTS

- TRINITY institute participate in compition
- First in treasure hunt in Cross Roads events
- Volunteering in Sopra steria (MNC)

CERTIFICATIONS

- Gemini for google workshop -Simple learn
- Software engg. job simulation-JP Morgan
- css - hackerrank
- Introduction to Genratative AI -Simple learn
- javascript- hackerrank
